

BE GREAT

Spring Newsletter

Create a Recycled Notebook

Your child has the opportunity to take a field trip to Gonzaga University's CCASL building to make their own recycled spiral notebook!

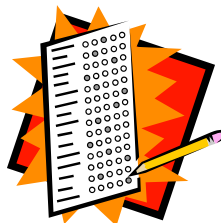

Your child can participate in this unique activity by meeting their weekly goals, attending the BE GREAT room regularly, and working with their mentor on their scheduled day.

In order to make the recycled notebooks your child will need to bring in old cereal or food boxes. Once all the kids have collected their potential recycled notebook pieces they will then gather old scrap paper laying around the Club to put in their notebooks.

While on the field trip we will take a quick tour of Gonzaga and meet some of their mentors .

The field trip to Gonzaga will be Wednesday, April 13th and in order for your child to attend we will need the attached parent/ guardian permission slip returned by Monday, April 11th.

If you have any questions regarding your child's attendance at the Club or in the BE GREAT room don't hesitate to call or e-mail the Education Director or the Education Coordinator.

BE GREAT: Think Straight

MSP Testing is just around the corner and we have access to different resources that will help your child practice for the MSP. The members have full access to our MSP workbooks and will also be able to create an account to practice online.

During Spring Break we will offer an intense yet fun program that will help your child practice for their upcoming test. Each day your child has the option to take an online practice test or select one of our worksheets to receive BE GREAT points. At the end of the week we will total the amount of points each member has received and the top 3 members with the highest amount of points will win some awesome prizes!

Remember that you can also help your child practice by going to the following website : www.k12.wa.us/assessment/StateTesting/MSP.aspx and clicking Test Questions.
